Getting there by train

Hull Trains runs direct services from London King's Cross. The operator advertises its fastest journey at around 2½ hours; other services may take longer or involve a change. Pick your return as carefully as your outward train and leave room for the walk back after the match.

Due to engineering works scheduled on Sunday 25th October there is a reduced train service between London Kings Cross and Hull. There is one direct train from London King's Cross at 8.57am, scheduled to arrive in Hull at 11.33. There are other trains that require a change at Doncaster and will take longer. For the return journey there is a train at 16.36 direct, which given the time to walk between the stadium and the station maybe difficult to make. The next is at 19.09 to London's Kings Cross. There are other trains available but will require a change at Doncaster.
